

WORKSKIFF®

Aluminum Boats for Severe Service

CATHEDRAL SERIES 17' - 25'

Originally designed for US Navy oil spill response crews, the **CATHEDRAL SERIES** is a very stable and versatile work platform. The cathedral hull configuration results in a broad bow which provides the maximum cargo and working space. This series is known for its ability to plane easily and quickly as well as its stability at rest. These features make it a solid hydrographic survey and oil spill response platform. Since it can be outfitted with a center console or cabin, the **CATHEDRAL SERIES** can easily be modified to fit your specific workboat application.

- **RUGGED**
- **SELF-BAILING**
- **FOAM FLOTATION**
- **TRAILER-ABLE**

- ✓ *Cathedral hull*
- ✓ *Marine-grade 5086 aluminum*
